

## Who-Where-How Spends Your Money?

**We Have So Fla's Best Source Taste And Color - Not So Good**

Belle Glade's \$2 million dollar water plant has suffered from malnutrition of planning, and financing since it's design days of two shallow wells, rusty pipe and no limit in volume of water use for \$1.50 per month.

In 1937 engineers surveyed the community and recommended a plant "for 20 years growth."

Intermittently, but averaging four-five years later, succeeding planners for ten or twenty years have added to design and capacity, all inadequate, with appropriate financing for the planned unit.

Starting with 385 customers in '37 the plant now has 2,700 meters, with seven of these six-inch for group users, to equal approximately 5,000 normal sized meters.

The "modern plant" for 20 years needs "37 pumped 200,000 gallons per day; the current use is 1,000,000 gallons, with a capacity of 3,000,000 gallons daily."

The City of South Bay, two migratory camps with a population of "around 3,000, the Prison Farm, and the Experiment Station are the volume users of the water plant."

There is said some 80 miles of pipe, of which 70 percent is six-inch, and the balance two, four and twelve inches.

The one service truck of '37 has been increased to six at present, with eleven men and two office employees.

The annual budget of the department is now set at \$208,000. For a minimum fee of \$2.00 is one time from \$1.50 you may use 2500 gallons. For the next ten thousand you pay 60c; for the next fifteen thousand 40c; for the next ten thousand and 30c for each thousand thereafter.

Since the first engineer planned a system for the City, much water has been evaporated and worn out by the upfull in testing in and around the Lake for the best source of fresh water.

With the greatest and most dependable source of fresh water in the southeast part of Florida, Belle Glade's water leaves a great deal to be desired as it comes from the faucet.

Miami would spend millions for the privilege of securing its water direct from Lake Okechobee.

Apparently the water now taken from the rim canal on the east side of the lake, and just north of the Torrey Island bridge, must be treated with so much chemicals that the taste and sometimes the smell, is not good for a woogie stomach.

We're still testing, with apparent most desirable source in the Pelican Bay area. Each succeeding City Commission listens to long reports as to the most desirable particular location for the intake.

**WORLD DAY OF PRAYER**  
World Day of Prayer will be observed Friday, March 1, 3:30 p. m. at the First Baptist Church Belle Glade. All Churches are invited to participate.

**CORRECTION**  
The Ad "Announcement" that ran in our paper for the Insurance Agencies being started on Saturday, Beginning March 2, 1953 is NOT CORRECT. They will be open for business.

## 709 Democrats And 19 Republicans Voted In Glades

### Harvest Queen Entry Deadline Is March 8

Deadline on entries for the 10th Annual Harvest Queen Contest sponsored by the Jaycees is March 8, according to Bill Aspey, chairman for the event.

So far 33 girls are entered to vie for the queen honors. The contest has been set for April 6, Bill said. Three bands have been under discussion for the dance following the coronation. They are Bill Butterfield, Tony Pastor and Lester Lanin.

More about the contest in next week's edition of the Herald.

### So. Fla. Letter Carriers Met Saturday For Glades Dinner And VIP Speeches

Master of Ceremonies Aubrey Davis presented local VIPs and their own national Vice President, James H. Rademacher, of Washington for welcoming talks and discussion of proposed legislation to some 250 guests from the So. Fla. District of Letter Carriers, last Saturday night.

R. P. Mackey, Assistant Postmaster did the honors for the profession; Bob Lee, President of the C of C welcomed the 250 of the C of C welcomed the 250 of the C of C.

**John Linderman Dies In Atlanta At Vets Hospital**

Word has been received here of the death of John Linderman at the Veterans Hospital in Atlanta, Ga., where he has been a patient intermittently for the past two years.

Mr. and Mrs. Linderman will be recalled as former residents of Belle Glade at operators of Northmoor Courts.

A veteran of World War I, and formerly with the City of Commerce, Mr. and Mrs. Linderman had retired sometime ago, living in the Home Place in that City.

Mrs. Linderman is a sister of the former Mrs. H. J. Howington.

### Glades Heart Ball Mar. 9 At Armory

The Glades Heart Ball will feature Johnny Long's nine-piece orchestra on March 9th at the Belle Glade Armory at nine p. m. Two giant red hearts will highlight the entrance at this gala affair.

Mrs. E. F. Mixson is chairman of the Heart Ball, and in charge of table reservations. Mrs. Wilbur Minney and Mrs. George Wedgworth are in charge of decorations. Mrs. Guy D. Wood, Jr., is chairman of the ticket committee, which includes Mrs. John L. Grady, Mrs. James A. Gray, Mrs. Arthur Levy, Mrs. Lee Berryhill, Mrs. Bill Burke, Mrs. George Wedgworth, Mrs. George Tucker, Mr. Frank O'Connell, Mr. Roy Kimberly, Hector Ouellette, Al Harris, Ted Roman, and others.

Table reservations can be made by calling 996-5247.

All proceeds of the Glades Heart Ball will go to the Heart Association of Palm Beach County. Come out and hear and dance to one of the finest dance bands in the country, for your Heart's sake.

**Honors Awarded Four Local Men For Scout Work**

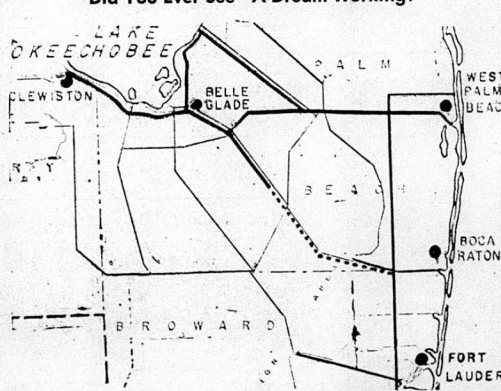

Four local men were honored at the annual Recognition Banquet held by the Gulf Stream Council, Inc. of the Boy Scouts of America last Thursday in the George Washington Hotel in West Palm Beach.

Following the banquet, Howard Campbell, Gulf Stream Council president, introduced young explorer, Fred Mikill of Post 199, West Palm Beach, as the outstanding Eagle Scout of 1952 who, in turn, spoke to the 250 adult "Scouters and their wives on "What Scouting Means to Me."

Rev. Thomas Hagala, a Baptist preacher from High Point, N. C. was guest speaker at the banquet and received a standing ovation for his message, which was the high light of the evening. He is a gifted speaker and travels all across the country in the interest of Scouting.

Leadership Training Awards were presented with Dr. Herbert Chapman as presenter. (Continued On Page 4)

### Did You Ever See A Dream Working?

County Commissioner Warren is unequivocally pledged to work for what he describes as a "Dream Road" down the south side of the Hillsboro Canal through personal statements and by legislative advertisements in THE HERALD, and by personal statements since his election.

Other aspiring candidates for Palm Beach County's two new seats in the Florida House of Representatives are pledged to the same cause.

Representative Emmett Roberts has publically announced his intention to see that the route is designated as a primary state road, so that Glades residents may have a short route to Boca University and the lower east coast of the County.

Folks on the lower east coast are calling for the eight mile strip State Road No. 7 westward to the Conservation Area be modernized.

### Study of Communism Program In Schools Assured By Board

Jerry Thomas delivered to the County School Board \$4,000 raised by his Book Fund Committee throughout the county, and the Board acted favorably on a motion to provide the additional funds necessary to carry forward the project in Palm Beach County Schools.

The action provided that the donated money be used to provide books at public libraries, and the balance to be spent for books to be used in the school system.

Palm Beach is one of the first counties in the State to initiate this course in the schools.

**Road-Bridge Money It's Coming - Slowly**

The County Commission has been informed that the final circuit court test as to validity has been passed on the county's 15-million-dollar bond issue.

The final day for appeal to the Fla. Supreme Court is designated as March 12, and the bonds are expected to be sold on March 15th.

Hurry up boys; Glades traffic is sprouting "younguns" all the time, and the holes are getting bigger.

### Grigsby To Attend Braves Celebration In WPB March 9th

Mayor Grigsby of South Bay has accepted an invitation to attend the celebration being planned for the Milwaukee Braves in West Palm Beach on March 9th at 1:30.

Judge McIntosh, who is heading the Committee on arrangements asked the Mayor to preside over the recognition at the program ceremonies.

**C of C Views RR Strike With Alarm**

At a recent meeting of the Board of Directors, the Belle Glades Chamber of Commerce "expressed deep concern" in the existing RR-strike, and the "future effect it might have on the economy of the area."

In a letter to W. L. Thornton of the FEC, the Chamber requests every effort be made to immediately resolve the differences, so that a normal operation can once again be expected.

The letter points out that "the movement of vegetables and fruit out of the Lake Area will be at its peak," and "rather far-reaching monetary losses could result - due to lack of equipment."

### Monday's Market Mostly Steady

Market as a whole was steady at Monday's sale at Glades Livestock Market. There was a nice run of slaughter steers. A total of 222 head of cattle were sold for \$30,020.85. 34 per cent of the offering went to slaughter and 66 percent to stocker. 11 percent of the run was cows; 35 percent went to slaughter.

There is a very good demand for stocker cows and steers to go on Glades pasture. If you have any to sell send them or call Glades Livestock Market.

At Monday's sale there will be offered 11 good black broad cows; 4 calves on ground; 9 nice dairy heifers; selling hereafter.

### Stafford Leads Pruitt 260-240 Oyer's Lead Over Moore 343-169

"I didn't know any of them" or "it was raining when I got around to voting," generally covers the excuses for the light Glades vote Tuesday, when approximately 709 Democrats and 19 Republicans exercised the privilege to vote.

Stafford leads Pruitt in the Glades by a vote of 260 to 240. While Oyer has a 139 vote lead over Moore, Stafford carried Canal Point and Pahokee, while Oyer carried Belle Glade, South Bay, Chosen and Lake Harbor.

The Republicans delivered their votes up generally. Lake Harbor and Chosen didn't vote a republican South Bay voted 669 unopposed. The Jaycees exercised the privilege to vote.

Attorney Pruitt in the County while Oyer has a 139 vote lead over Moore has about a 700 vote lead over Oyer.

The runoff - March 12th of March should see a great many more registrants casting a ballot, and if the Democrats don't "get a hump on" they may find themselves represented in Italy by two Republicans.

In groups which sometimes have included the entire Board of Directors, the Belle Glades Chamber of Commerce and the Board of Health are cooperating in several cases by plans furnished by member Mutt Thomas, the Board of the Glades General Hospital is visiting ten hospitals in South Florida, to get first-hand information concerning lay-outs and arrangements of rooms and services.

Special features in furnishing operating rooms are being studied by Board members, and the latest in this department have been observed, and the reactions of the personnel towards them have been very helpful in arriving at some definite conclusion.

Elevators and their location, operating rooms and their lighting and special features for rooms to lighten the load on the nurses, heat and conditioning, and many apparently minor things, loom up as major questions.

### Jaycee's Seat Belt

The Belle Glade Jaycee's announced today they will hold their seat belt clinic at the Glades Chevrolet building. Dates will be Saturdays, March 2nd and 9th.

Plenty of JC's will be on hand so there will be no waiting for installation of belts. The belts come in 7 colors, so stop by and have this added safety in your car. Belts will be \$6.00 each installed.

## Daily Diet Pattern With 1500 Calories

Miss Mary Todd, Home Demonstration Agent, suggests that even those on a reducing diet check their menus to be certain that they contain all the nutrients needed for good nutrition. She says the following Daily Diet Pattern will provide necessary nutrients and only 1500 calories.

- 1 pint whole milk.
- 5 ounces lean meat, poultry, fish (broiled, boiled, or roasted), or cheese. May be divided between lunch and dinner. Liver once weekly.
- ½ cup enriched or whole-grain cereal, 1 small potato, 4 slices enriched or whole wheat bread for ½ cup cooked spaghetti or noodles, cooked cereal, a muffin, biscuit or 2-inch square of cornbread.
- 1 serving green or yellow vegetable.
- 2 servings of other vegetables.
- 1 serving citrus fruit or tomato.
- 4-ounce glass grapefruit or orange juice; 8 ounce glass (tomato juice).
- 2 servings either fruit, fresh or unsweetened.
- 4 teaspoons butter or enriched margarine.

If your weekly loss of weight on this 1500 calories pattern seems too small, then, The American Dietetic Association suggests you drop it to 1200 calories. To do so, use skim milk or buttermilk instead of whole milk, and cut out cereal, potato, or one slice of bread and one teaspoon of fat daily.

A diet of less than 1200 calories day is not recommended by experts in weight control, unless under the supervision of a physician or experienced dietitian.

Mrs. J. L. Walling of Ft. Lauderdale was a visitor of Mr. and Mrs. Clark Jones for the weekend.

## Belle Glade Garden Club Informed About Conservation In Glades Area

"Conservation of water, under the general plan of C&SF Flood Control, accounts for many of you being here this afternoon and for the overall feel of conservation of water for the continual expansion of the lower east coast's permanent and tourist population." Luther Jones, Herald publisher, told members of the Belle Glade Garden Club at their guests at a regular meeting of the Club, Mr. Jones, explained conservation in the Glades area.

"The system of impounding and storing fresh water for the use of agriculture around Lake Okechobee, and its passage into the conservation area where flood storage feeds the well fields of the east coast communities, make it practical for permanent and continuous increase of supply of fresh water for personal uses and for industry."

Of course, the passing of the water accumulated in the Lake from its various water sheds, conserves the fish and wildlife in the Big Lake, as well as within the boundaries of the man-made lakes, or storage basins.

"The flooding of unused raw lands conserves the soil, both from fire and from erosion. Neither the State nor the Federal government has 'spent' a dollar on RECLAMATION in these eighteen counties — rather, an effort has been made in RECLAMATION in conservation."

This investment has been returned many fold already through increased taxes since the year '55 the records of increased taxes from the coastal counties within the C&SF Flood Control District show that the increase in taxes over the 1950-55 five years, has returned to each acre (state and federal) EACH YEAR the total cost of the project to date.

What is not for conservation, particularly that practiced in the eighteen counties comprising the Central and Southern Florida, many of us would not be here today.

Fresh water control and use, through the facilities of C&SF FCD has been the determining factor in sufficient water supply for agriculture, fish and wildlife, soil, and the most important of all — personal use to our year-round population as well as our touring-visitors.

Geologist and other scientists tell us that Florida is the most beautifully supplied state with fresh water.

The hundred million dollar annual production of food for man and beast, of this Country

exists today because of conservation. This production for everyday family tables consists of vegetables, sugar and beef. "Ladies, hold your heads high, for in this country of aristocrats — economic and social — the Glades contribute another line of aristocrats that of agriculture."

Mollowing Mr. Jones talk Mrs. F. Brown, a pioneer club woman of the Glades showed snapshots of Belle Glade, which was incorporated in 1926. She told about the first school and church, and other historic places and landmarks.

During the business meeting with Mrs. J. P. Halbrook president presiding, the nominating committee was elected including Mrs. W. R. Hooker, Mrs. R. E. Watson and Mrs. Lonnie Warren.

The club was invited to attend a meeting Feb. 19, when Mrs. Alfred Butler, president of Nat'l. Corsage Club was a guest of the Chosen Garden Club.

Guests were Mrs. John C. Halbrook and Mrs. Ralph Kirk.

## New Interim Pastor To Preach Sunday At Presbyterian Ch.

Dr. John D. Henderson has been secured as interim pastor of the Everglades Presbyterian Church as announced by the elders of the Church. Dr. Henderson will arrive in the community on Saturday and will preach at the 11 a. m. worship service Sunday, Mar. 3rd. He will use as his subject "How to Know More About God." His message will be based on the words of the Psalmist who said, "Be still, and know that I am God."

For the past 11 years Dr. Henderson was pastor of the Riviera Presbyterian Church, South Miami, Fla. Under his ministry this Church grew from a Home Mission Church to one of the large churches of this Presbytery. Before coming to Riviera the guest minister served as an evangelist in the General Assembly of the Presbyterian Church.

Dr. Henderson in accepting his call to this church to be supply pastor said that he wished to be used in any way possible to serve this community and that he will be open for consultation with any who have spiritual problems.

## praying hands

these hands in prayer with fingers gently poised as ten cathedral towers in humble supplication gently now approach hands that have soothed the infant's cry, or in love, caressed the wrinkled brow of age, now lifted up in prayer these praying hands are voices and hearts, in church, at work, at home, wherever you may be, hands that speak unfeignedly by silence, or haste, or time, we ask thy guidance in hour, or trial, for, we are thine!

## New Frontiers In Home Missions Topic Of WSCS

"New Frontiers in Home Missions" was the title of the program presented at the Woman's Society of Christian Service General Meeting on Tuesday afternoon. The Clara Circle was in charge of the program. Mrs. Dorothy Graber gave the devotional selections and Mrs. Eocky Ponder presented the program, which dealt with the problems faced in scattered rural areas and in the problems faced by our senior citizens and efforts made by Home Mission workers to solve the problems. During the discussion following the program, it was brought out that one way we could help right here in our own community was to aid in "Operation Alphabet" a program to teach diemen and reading and writing to adults who have not as yet acquired this skill.

During the business meeting, presided over by the president, Mrs. Lois Abel, members were reminded to attend the World Day of Prayer which will be observed in the First Baptist Church at 3:30 on March 1. The Members present voted to accept the new "Charter of Racial Policies" which is in the process of being adopted by the Annual Conference of Woman's Societies. The acceptance of this Charter will be voted upon by the delegates to the Annual Meeting in Daytona Beach, on April 23, 24, 25. After reports by Secretaries and other Committee Chairmen, the meeting was adjourned with prayer by Mrs. Boland.

Master Chief Shipwright, James W. Allen of the U. S. N. W. aboard the USS Yellowstone, A. D. 27, operating out of Mayport, Fla., on I. S. E. Cruise, which made a port of call at Fort Everglades, Ft. Lauderdale.

When the ship reached port, William W. Murray Jr., of Lantana had lunch and made a tour of the Yellowstone with his brother-in-law, The Murrys and Chief Allen then visited his parents, W. C. Allen and Mrs. Allen who is ill in the local hospital. On Friday Mr. Allen, Joe Hester and Chief Allen were guests of Mr. Murray on a deep seas fishing trip.

(The following a humorous article of the Yellowstone was taken from Jacksonville paper before leaving on its voyage.)

Now hear this, now hear this: The USS Yellowstone has put out to sea.

And before landlubbers ask, "So what?" read on.

The valiant USS Yellowstone is a destroyer tender — a floating collection of workshops — machine shops, electronics, shops, optical, printing, photo, canvas and other specialty shops to serve the needs of 28 destroyers assigned to Mayport Naval Station.

She rarely leaves her pier. So when she was ordered out for a 6-day cruise just to prove she and her crew of 589 could do it. Navy personnel at the base staged a gala bon voyage ceremony.

Capt. Frederick Radell, commander of Destroyer Squadron 8, mastermind of the tongue-in-cheek sendoff yesterday sent a basket of empty champagne bottles to celebrate.

A play-by-play description was handled by Comdr. Stanley H. Brittingham, aboard the Destroyer Hunt. Over a loud-speaker system, he announced: "Not this unusual sight, the tanning of the USS Yellowstone. This is probably the first and last time you will have such an opportunity. The sailing of this remarkable ship is one of the most unusual sights in the world."

A crew from the Destroyer Harwood went to the tender's side with the wire cutters and emergency welding rig — in case the Yellowstone had to be cut away from the pier.

Personnel from other destroyers showed up with buckets and life lines. They were prepared to dredge coffee grounds from under the tender's keel so the propeller could turn.

A turbost displayed a listless "follow me" as it let the Yellowstone from the harbor.

W. C. (Faw) ALLEN was in Miami when the blow came last week, and found this tree across both family cars when he returned during the afternoon.

The car on the left had a broken windshield, front door and the top squashed in.

"A Thousand Clowns" Wth Jack Carter Opens Monday At Poinciana Playhouse

A Thousand Clowns, "Herb Gardner's zany, daffy comedy with a 'a thousand laughs,' that opened on Broadway almost a year ago and is still running, is Frank J. Hale's next presentation at his Royal Poinciana Playhouse in Palm Beach.

Jack Carter, one of the most popular comedians to emerge from the 50's, will star in this production, which will have a week's run beginning Monday, March 4th and running through Saturday, March 5th. The comedy will be directed by Malcolm Black.

In 1961, Mr. Carter, for several years a member of the exclusive summit circle of comedians — Bob Hope, Milton Berle, Jimmy Durante and Jack Benny, made his motion picture debut in "The Horizontal Lieutenant," with Jim Hutton and Paula Prentiss. His unusual dramatic abilities caught the attention of Hollywood and he was immediately

W. C. Moon Speaks To Insurance Group

The Everglades Chapter of the Florida State Underwriters Assn., met at Ray's Smokehouse in South Bay. Speaker for the meeting was D. C. Moon, District Director for Southern Life and Health in this area.

Mr. Moon, also the vice-president of the Florida Assn. of Life Underwriters, spoke on the advantages of having a "Pop program" to increase membership and better the insurance industry in the eye of the general public.

The local group was honored by having as guests the Palm Beach-Broward Recreational Advisory Committee of the Central and Florida South Central District.

Old Yellowstone Heads Out To Glee

Master Chief Shipwright, James W. Allen of the U. S. N. W. aboard the USS Yellowstone, A. D. 27, operating out of Mayport, Fla., on I. S. E. Cruise, which made a port of call at Fort Everglades, Ft. Lauderdale.

When the ship reached port, William W. Murray Jr., of Lantana had lunch and made a tour of the Yellowstone with his brother-in-law, The Murrys and Chief Allen then visited his parents, W. C. Allen and Mrs. Allen who is ill in the local hospital. On Friday Mr. Allen, Joe Hester and Chief Allen were guests of Mr. Murray on a deep seas fishing trip.

(The following a humorous article of the Yellowstone was taken from Jacksonville paper before leaving on its voyage.)

Now hear this, now hear this: The USS Yellowstone has put out to sea.

And before landlubbers ask, "So what?" read on.

The valiant USS Yellowstone is a destroyer tender — a floating collection of workshops — machine shops, electronics, shops, optical, printing, photo, canvas and other specialty shops to serve the needs of 28 destroyers assigned to Mayport Naval Station.

She rarely leaves her pier. So when she was ordered out for a 6-day cruise just to prove she and her crew of 589 could do it. Navy personnel at the base staged a gala bon voyage ceremony.

Capt. Frederick Radell, commander of Destroyer Squadron 8, mastermind of the tongue-in-cheek sendoff yesterday sent a basket of empty champagne bottles to celebrate.

A play-by-play description was handled by Comdr. Stanley H. Brittingham, aboard the Destroyer Hunt. Over a loud-speaker system, he announced: "Not this unusual sight, the tanning of the USS Yellowstone. This is probably the first and last time you will have such an opportunity. The sailing of this remarkable ship is one of the most unusual sights in the world."

A crew from the Destroyer Harwood went to the tender's side with the wire cutters and emergency welding rig — in case the Yellowstone had to be cut away from the pier.

Personnel from other destroyers showed up with buckets and life lines. They were prepared to dredge coffee grounds from under the tender's keel so the propeller could turn.

A turbost displayed a listless "follow me" as it let the Yellowstone from the harbor.

Other tugs played firehoses. The Yellowstone sailed for Port Everglades, 300 miles to the south.

Skip Fuller — pole vault.  
Johnny Dell — relays.  
Tom Close  
Tim Hill  
Ronald Shurley  
Guy Wilson

**TENNIS**  
Our tennis team had its first match last Thursday, against Stuart. Although we were defeated, Miss Bottoms, the tennis coach, said, "Patti Wilkinson and Merikay Mincey are both excellent players and have shown their ability by winning their first matches."

I asked about future matches. Coach Bottoms stated this statement: "Regardless of the inexperience of the Belle Glade players, we feel that they have shown great promise. We realize we have a lot to learn, but our matches will no doubt serve as real experiences. The majority of our players are either freshmen or sophomores with much desire, good potential and future champions."

Girls on the tennis team are Patti Wilkinson, Merikay Mincey, Linda Rockwell, Janice White, Mary Alice McMillan, Kate Polder, Bonnie Jean Anderson, Sue Wiering, Jane Wiering, Cheryl Stone, Suzanne Williams, Sally Bonland.

The tennis schedule is as follows:

February 21 — Stuart at Belle Glade.

February 28 — Belle Glade at Ft. Pierce.

March 7 — Vero Beach at Ft. Pierce.

March 13 — Belle Glade at Riviera Beach.

March 21 — Conference at Lake Worth.

**GOLF**

The golf team got off to a fair start this season, having had their first match last Monday. In this match Belle Glade was in competition with Vero Beach and Riviera Beach at Vero. In the girls match Belle Glade came in second behind Vero and ahead of Riviera. In the boys match Vero was first, Riviera was second, and Belle Glade was third.

Students on the golf team are:

Girls: Patti Wilkinson, Francine Holton, Pat Fisher, Robin Davis.

Boys: Hub Spooner, Rod Parrish, Lane Creech, Jeff Altman, Johnny Dell.

Future Matches are:

February 25 — Ft. Pierce, Palm Beach, Clewiston, Belle Glade at Belle Glade.

March 4 — Riviera at Belle Glade.

March 11, Seacrest, Belle Glade, Forest Hill at Forest Hill.

March 18 — Stuart, Belle Glade, Seacrest at Seacrest.

March 25 — Conference at Ft. Pierce.

#### The Dying Ember

By Dale Henderson

'Tis evening now, and the sun, Whose flaming brilliance hath burnt  
A golden path across the blue  
Canvases of sky.  
Dips toward the horizon, and  
Death!

This huge, dying ember attempts to epitomize. The splendor of a sunset before it is overwhelmed. By the Death of Darkness. The silver-lined clouds provide A stunning contrast to the

overarching colors Of flame-orange, bright yellow, and sea green. Flushing back to the darker shades of blue. Blue-green, and blue-velvet. These stab at the splatter of color spilled Across the horizon like a thousand knives, First embracing, then slicing, destroying.

The sun's dying words. One last gasp, and it is done. All that remains are the rapidly fading

Mixtures of color, echoing, resounding. As though an encore of the last performance Of the Star of Light. Then all is dark.

**Oh For A Blessed Peace**

Mary Lou Raulerson

Since the day that I was born, I have known men's scorn; I never am right, never wrong. But just keep living — living

Oh, for a relief of this awful pain! Oh, for a friend who cares, but not in vain.

But wait! There is a relief, but no friend. Sweet Death will end my sorrow.

Take away my ugly tomorrow, — And give me that blessed peace for which I long.

## Students Win Scholarships

Scholarship-loans have been awarded to Ginger Crichtfield, Barbara Wolf, and Sally Ann Boland.

These scholarship-loans were awarded by the State Department of Education for the preparation of teachers. They are for the amount of \$400-a-year. The awards were made on the basis of their standing on a recent state-wide competitive examination.

To be eligible for these scholarship-loans the recipient must register in an approved institution of higher learning in Florida. The scholarship-loans may be held for four years or until a Bachelor's degree is attained.

After graduation with a Bachelor's degree, the recipient must begin teaching in a division of the public school system in Florida and must teach for the number of years that the scholarship was held.

The examinations were held in two divisions: teaching and nursing. More than two hundred students took the examinations which were held last fall. The three scholarships awarded to Belle Glade students were in the teaching division.

The Rampage Staff salutes Mr. Groover as the teacher of the week. For the past three years he has been a science teacher and has worked hard

with a new staff. Mr. Groover organized group the Science Club. Also he is chairman of the Science Department of B. C. H. S.

The degrees he has received are Bachelor of Science and Arts and Master of Education.

One of the things he finds most interesting about being a science teacher is this: The fact that we do not know it all, but that we do try to give an honest appraisal as to why things happen.

In fourth period art, everything was peaceful. Then the wind increased tremendously; the trees on campus were twirling with vigor. Students rushed to the windows to observe the swift change in the weather.

Suddenly the lights flickered and the room did iron spit fire like a dragon. "I want go Monday with a new week better like this school and I sure as hell," stated one boy. "I don't. Many thought the whole ordeal to be hilarious, yet weren't going to die in it!" The class room happy to see the ever-darkening skies. Very little work was done the rest of the period.

"Ring!" went the bell. The corridors were full of frenzied students. The rain drops were as large as turkey eggs. Every one rushed for his classroom to keep from drowning.

At the far end of the corridor, huddled mechanical drawing students. The conversation was, as you might expect, about the weather. The torrents of water pouring down were presenting a perplexing problem—how to get to class. The industrial arts building was a hundred yards away.

Comments were as such, "But Mr. Ward, I can't swim!" "Mr. Ward! Let's all go to study hall, okay?" "I already have my books, and this student immediately began to cough.

The rain slacked. Mr. Ward headed off through mud and mire towards the building. Unhappily, the students followed.

Fifth period progressed. Neither rain nor wind interrupted the education system of Belle Glade High students. Near the end of the next-to-the-last period, the winds subsided and the rains slackened. Soon afterwards, the ever-watchful eye of the P. A. system announced that the worst was over. Some released a sigh of relief; some remarked that was just what they had ever seen. (They had never really seen one before.) One student said the clock and remarked, "Three days, one hour, and five minutes 'til Friday."

The rains continued. But students and teachers returned to their natural selves and life became almost normal again.

There is a funnel headed this way accompanied by high winds and rain. Some were frightened, some puzzled, and some just didn't care either way.

One English teacher was puzzled at first, thought about the situation a moment, and became a little worried. Her eyes

glazed. She was unable to believe that the news could possibly be true. Finally she mumbled, "Well, I guess we're just as safe here. The school is well built. I hope!"

## Basketball Tournaments Begin Feb. 28

The basketball tournaments will begin tonight. Coach Luke thinks the Rams chances are pretty good in the first round when they play a Fort Lauderdale school. If Belle Glade wins the first round, they then play Riviera.

Coach Luke commented that one disadvantage was that the team must play three games Thursday afternoon, and if they win, they play another game that night.

If Belle Glade should win the second game against Riviera, they would play in the finals Friday night against the winners of a game between Cardinal Newman and St. Thomas Aquinas.

The probable line-up for the tournaments is as follows:

Tom Close  
Frank Kruse  
Eddie Buckner  
Tony Latour

"It should also be noted," said Coach Luke, "that Tom Close is the second leading scorer in the conference."

### CATTLE AND CALVES ON FEED

On January 1, 1963 there were 83,000 cattle and calves on feed in Florida. This was 14 percent above a year earlier and one third more than the number on feed January 1, 1961. The number of cattle and calves on feed has increased each year since the estimates began in 1960.

Cattle and calves on feed are animals being fattened for slaughter market on grain or other concentrates and are expected to produce a carcass that will grade good or better.

**Number On Feed Increase 12 Percent**  
Cattle and calves on feed for slaughter market in the 28 major feeding States totaled 8,951,000 head as of January 1, 1963, according to the Crop Reporting Board. This was 12 percent more than on January 1 a year earlier and up seasonally from the 8,143,000 head on feed October 1, 1962.

Those weighing less than 900 pounds accounted for about 85 percent of the increase in cattle on feed from January 1, 1962. In addition there were 342,000 head of cattle and calves on feed for slaughter market in 6 Atlantic States and 5 South Atlantic States January 1, 1963, compared with 328,000 head last January 1. The 22 States, plus the 11 States give a 39 State total of 2,993,000 head on feed, up 12 percent from the 2,619,000 head a year earlier.

#### Marketing intentions

Cattle feeders in the 28 States now indicate that they will market 3,771,000 head during the January-March 1963 period. This represents about 42 percent of the total on hand January 1 and would be 9 percent more than actual marketings from the January 1, 1962 inventory during the same period last year. Western States indicate a rather sharp 16 percent jump in January-March marketings, but mid-west-Corn Belt feeders also are pointing toward a 6 percent greater movement of cattle from feedlots during early 1963.

## FLORIDA ROUNDUP

### FLORIDA CATTLE PRICES

January prices received for lower grade slaughter cattle were generally below a year earlier. In contrast, higher grade steer prices continued well above prices in January 1962. Calf prices in January averaged lower than a year earlier.

Prices received for most grades of stocker cattle and calves in January were generally above prices in January 1962.

#### PER CAPITA CONSUMPTION

Preliminary figures of per capita consumption of beef for the Nation is 89 pounds, up 1 pound from 1961 and 234 pounds above the 1947-49 average.

#### BEEF CATTLE OUTLOOK FOR THE NATION

Assuming reasonably normal weather conditions in 1963, commercial cattle slaughter is expected to total about 27 million head or more. This would be an increase of 3 to 4 percent from the commercial slaughter for 1962. Most of the increase in slaughter this year is expected to be made up of cows and steers, with heifer slaughter up only slightly from 1962. Fed cattle marketings for the first half of 1963 may be 8 to 10 percent above the first half of 1962.

The January 1, 1963 inventory of cattle and calves on Florida farms totaled 1,799,000 head, 5 percent more than a year earlier. There were 1,449,000 head of beef cattle, an increase of 8 percent over January 1962. The largest increase was in cows and calves. Florida ranks 25th in the Nation in number of cattle and calves and 13th in beef animals. Dairy cows and calves at 188,000 head was 3 percent below last year.

On January 1, 1963 there were 103.8 million head of cattle and calves on farms and ranches in the Nation, the highest of record and 4 percent above a year earlier. Milk cows, 2 years and older, declined 2 percent to 18.7 million head, the smallest number since 1907. The inventory of beef animals and bulls increased 6 percent, reaching 74.9 million on January 1. There was a larger increase in numbers of heifers and steers than in cows and calves.

**FLORIDA'S NEWEST** source of formula feeds is this mill in Tampa, renovated and formally opened February 23 by the Nutrena feed division of Cargill, Inc. The plant, purchased last year by Nutrena from General Mills, services 37 counties from Ocala in the north to Lake Okechobee in the south, from the Gulf to the Atlantic. Some of the plant's 20 trucks are at the loading dock (left) and the scale (right). James C. North, Nutrena division head, says the plant's renovation makes it Florida's most modern feed mill. Production capacity was increased to 300 tons daily from 180 tons.

### UNCLE DAN from DOOLIE says:

Dear Mister Editor:  
I see by the papers where Senator Hart is urging the Congress to pass a law again "deceptive packaging" claims the wimmen folks all over the Nation is hollering loud on this matter. He said one of his loyal wimmen constituents reports it has got to the place where a honest housewife can't go to the grocery store no more and tell from the package what she is getting or how much. The chances is mighty good that this honest housewife

### Your Library

Courage is one of those relative things. With a man with that character in **THROUGH THE LOOKING GLASS**, the walrus? "I'm very brave generally, only today I have a head ache." The men around whom these three books are written were all awarded acclaim and by their countries for courage, and certainly they deserved the recognition. We tend to elevate them so high that it is blasphemous to have "Pappy" Boyington end his book with words: "Just name a hero, and I'll prove he's a bum." Best we let each book speak for itself.

#### Return of the Tiger, Connell.

Ivan Lyon had a tiger's head imprinted on his chest, tattooed yellow, black, and red. He was moody, restless, filled with insatiable wanderlust, and proud of a family line he could trace back to the thirteenth century. A member of the Gordon Highlanders, he died at the age of twenty-eight, after spearheading three of the most fantastic voyages to occur during World War II. The book is written with great detail the second of these, a remarkable raid in which fourteen Britishers and Australian, in sarongs and painted skin, sailed a junk from Australia to Japanese-held Japan to sink seven enemy ships, then returned safely home. It is an incredible story, which, for security reasons, has never been told before.

#### The Little Toy Dog, White.

Courage and high drama are on every page of this long, smallest narrative Someone made an excellent choice in having William L. White relate the story of the two RB-47 fliers, Captain John R. McKone, and Captain Freeman B. Olmstead. His exciting, well composed version of the story proves worth the wait. It has a gimmick or two, the title, which the fliers and author insisted upon over the editor's seasoned judgment, and the titles which Mr. White uses to indicate passages which are the impressions of a civilian author, and for which he is totally responsible. The only two survivors of a crew of six shot down over the Barents Sea, fifty miles off the Russian border, the SAC crewmen spent seven months in Russian prisons, without any knowledge of the clamor the incident was generating around the world. Their story is dedicated to the four who lost their lives. **See Bas Black Sheep.**

The hard hitting, hard drinking Marine flier, winner of the Congressional Medal of Honor and Navy Cross, who writes this book, received more notoriety than any other hero of World War II. His story is frequently coarse, occasionally irreverent, and sometimes disconnected, but always thoroughly enjoyable. "Pappy" Boyington pulls no punches. His chief victory is an achievement, and to Colonel Boyington's credit, he made it. This is a top-notch war story—Bunny Caselman

Following a year which saw savings reach an all time high, the 125 savings and loan associations in Florida picked up where they left off in 1962 by recording \$69,227,000 increase in savings during January. This was a record amount for the month of January and the second highest amount recorded in any single month by Florida associations.

This information was released by William D. Huxley, executive vice president of the Florida Savings and Loan League who revealed that with the \$69 million increase in January, total savings have reached an all time high of \$3.8 billion. This record amount of savings is represented by 1,497,000 savings account holders.

Mr. Huxley reported that although new construction leading was above that recorded in January 1962 and in December, total lending volume recorded by these associations since April 1961. Construction loans made in January totaled \$23,158,000 which accounted for the financing of 1,810 new dwelling units.

As of January 31, 1963, the savings and loan associations of Florida had assets of \$43,940,648, 000 and total mortgage loans of \$3,576,084,000.

### Four kinds of sport—all super

Want to make spring come in a hurry? Just pick a new car with whatever you desire for in performance and sporty trimmings—like bucket seats, 1-speed shift, big of bones—and start driving it now. Chevy's got a lot of sport in four entirely different kinds of cars.

First, the Jet-smooth Impala Super Sport with your choice of 7 different engines that range up to 425 hp and that include the popular Turbo-Fire 409 with 340 hp for the ultimate in smooth, responsive driving in modern traffic. Optional equipment, including Comfort steering wheel\* that adjusts to your convenience, makes it as super a sport as you'd like.

There's the Chevy II Nova, also available in an SS version. Special instrument cluster. Front buckets. All-vinyl trim. Distinctive SS identification. Fourteen-inch wheels and tires\* with vinyl disks. Three-speed shift or Powerglide\* with floor-mounted shift console.

Or the Corvair Monza Spyder with complete instrumentation, special identification, and an air-cooled Turbocharged Six.

And for a real wallop, see the stunning Corvette Sting Ray, winner of the "Car Life" 1963 Award for Engineering Excellence.

All told, four beautiful convertibles, four handsome coupes. You'll get a four-barrel kick just looking them over—and a whole lot more fun out of driving one!

\*Optional at extra cost.

Top—Corvair Monza Spyder Club Coupe. Below—Left, Chevrolet Impala Super Sport; right, Chevy II Nova 100 SS Convertible. (All four available in solid convertible and coupe models. Super Sport and Spyder equipment optional at extra cost.)

## PB County Red Cross Offering For Sale

One more of the few remaining historic landmarks in West Palm Beach has been offered for sale.

Today the Board of directors of the Palm Beach County Chapter, American Red Cross, with B. C. Cole as its Chapter Chairman, approved plans for immediately offer for sale its present "Chapter House" and land which faces on Lake Worth at the corner of Evernia and Narcissus Streets.

Clara Barton, founder of the American Red Cross, stayed in one of the rooms of the main building after her great work during the Spanish American War. The founder of the nationally known Gray Lady Program of the American Red Cross, the late Mrs. Henry Red Cross of Palm Beach, gave the present building and site to the Red Cross.

The proposed sale of this property, according to Jerome H. Pennek, Chairman of the committee for the sale of the present site, is to raise money to build a larger and more adequate building from which the Red Cross can serve the growing Palm Beach County. "We have property to build on but no money to build with until we sell this present site," he said. The new lot, recently ac-

quired by the Chapter is in the 900 block of Fern Street.

Stressing that money collected in the annual fund drives cannot be used to erect the new badly needed Chapter House, Pennek said, "The only means of realizing the dream of an adequate and efficiently designed building will be through the sale of the old one. It is hoped and expected that we will have many prospective purchasers interested in the large and beautiful piece of property we have to sell, and that soon we will have the funds to replace our present inadequate building."

When one considers the services given to this area by the Local Chapter, through its paid staff of six and its over fifteen hundred volunteers, he will see the need for a larger efficiently designed building. Some of the services supplied are: Nursing Service; First Aid and Water Safety Training; Motor Services; Canteen; Disaster Service, with its vital responsibility for creating, maintaining and supplying shelters during Hurricanes and other disasters; Home Service; Nurse's Aid;

Gray Ladies; Junior Red Cross.

Growing Palm Beach County demands enlarged and improved Red Cross facilities. We hope to have them soon."

Anybody for buying a lot 150 x 153 feet, and three houses, on the best remaining business corner in West Palm Beach?
